Konu: New Phytosanitary Certificates for Plant Health Services in the United Kingdom

Dear IPPC Contact Points,

The NPPO of the United Kingdom would like to inform you in a change to the phytosanitary certificates issued by the plant health services in the United Kingdom. The new formats can be located on the United Kingdom's [IPPC page](#). Please note the new certificates will be issued and in circulation from the 1st April 2018.

Could you please forward this email to the appropriate officers at points of entry in your country so they are aware of the change.

Please note you may still receive phytosanitary certificates issued before the 31st March 2018 that will not contain the new enhanced security features. Therefore there will be a two week transition period that will end at midnight (GMT) on the 14th April 2018.

Yours sincerely

Jason Pollock | International Plant Health Policy Adviser | Plant Health Team | Animal and Plant Health Programme | Department for Environment, Food and Rural Affairs |

UK Phytosanitary Certificates

UK Phytosanitary Certificates

Short Description Model templates for the phytosanitary certificates issued by England and Wales, Scotland, Northern Ireland, The Isle of Man, Guernsey and the Forestry Commission.

Jersey's phytosanitary certificate will be added shortly

Additional security measures have been added to try to ensure authenticity, these new features include: tamper proof stickers, security vignettes and hidden images

Other features include: unique traceable reference number, colour printing, presence of national logos, Ink stamp and original pen signature of the inspector certifying the PC.

The certification statements in all the variants now reflects the wording included in the IPPC and ISPM 12.
