

Phytosanitary requirements for import *Phaseolus vulgaris* grain  
from Turkey to Iran

1- Valid phytosanitary certificate from Turkey, in which the freeness of consignment from the following pest is indicated in the Additional Declarations (A.D):

- *Pseudomonas savastanoi* pv. *phaseolicola*
- *Xanthomonas axonopodis* pv. *phaseoli*

Note: The scientific name of the above mentioned pest should be indicated in the phytosanitary certificate, otherwise; the documents are considered as incomplete. Moreover, any financial customs losses and non-delivery of the consignment due to the non-compliance are to be borne by the importer/s.

2- Disinfection of the consignment by Phosphine gas 1.5 g/m<sup>3</sup> in temperature more than 15°C for 1 week in the country of origin and mentioning above features in the Treatment box of relevant phytosanitary certificate.
